

INVITATION

UGAL International Conference

Multidisciplinary HUB for the Higher Education Internationalization by Means of Innovative Interaction with the Labour Market and Society

26th-27th of October, 2018

Galați, România

Academics, researchers, practitioners, and experts in the field of Internationalization are cordially invited to submit research papers, articles case studies, posters to the International Conference Multidisciplinary HUB for the Higher Education Internationalization by Means of Innovative Interaction with the Labour Market and Society which will be organized by "Dunărea de Jos" University of Galati, Romania on 26 -27 October 2018.

This event is part of the project "Internaționalizarea activităților academice și a cercetării în Universitatea "Dunărea de Jos" din Galați, ACADEMIC" (Internationalization of Academic and Research activities at "Dunarea de Jos" University of Galati, ACADEMIC) implemented by "Dunarea de Jos" University of Galati in the framework of the CNFIS - FDI (National Council for Higher Education Funding - Institutional Development Funds) Programme.

The notion of excellence in Higher Education has constantly been approached and debated in recent years, not only by HE academics and specialists in various fields of activity, but also by representatives of state institutions concerned with finding appropriate solutions to the various types of socio-economic problems faced by countries all over the world.

Internationalization of HE is easily visible in the joint research articles and projects, in the academic and administrative staff mobility and in students mobility and specialists agree that, in spite of all the differences and difficulties, barriers to global HE enterprises are blurring. The next important step in the process of HE Internationalization is that which will allow HE representatives to find the appropriate legal and administrative

solutions meant to reshape the HE institutions so as to serve the students' real needs and to equip them with the skills required by the constantly shifting business models and trends in the labour market.

The goal of the International Conference Multidisciplinary HUB for the Higher Education Internationalization by Means of Innovative Interaction with the Labour Market and Society is to bring together academics, researchers, educational policy makers, entrepreneurs, with a view to exchange innovative education and research tools, valuable and relevant knowledge and expertise and to set up productive partnerships.
